GutterLock

Elite

GutterLock Elite is our premium gutter cover that protects your home from the problems of clogged gutters. Designed to handle any heavy rainfall, GutterLock Elite will fit the existing gutters, enhance the support of the gutters, and protect your home for years ... Guaranteed!

- Heavy gauge aluminum
- Fits over existing gutters
- Does not screw into the roof
- Eliminates cleaning of gutter
- Provides animal and pest control
- Made in the USA!

GutterLock Elite

GutterLock Elite is a 4' length panel that installs universally on 5" and 6" gutters. Elite comes in 13 colors.

Elite can be ordered in quantities of 25 pieces (full box = 100 ft.) or

4 pieces (which is a small box of 16 ft.).

1 - 499 pieces = Regular Shipping / 500 or more pieces = Discounted Shipping

Linen		

*See Dealer sample chips for exact color match.

GutterLock

EXTREME FLOW

GutterLock Extreme Flow is our premium gutter cover that offers all the benefits of the GutterLock Elite products with an even higher degree of protection on troublesome drainage areas. GutterLock Extreme Flow can be used in conjunction with the Elite product for a combined gutter protection system. GutterLock Extreme Flow is designed to work best in high flow areas of the gutter system:

- Steep Roofs
- Metal Roofs
- Valleys
- Inside Corners
- Designed to handle the toughest drainage areas of the gutter system, GutterLock Extreme Flow will fit the existing gutters, enhance the support of those gutters and also provides animal and pest control.

GutterLock Extreme Flow

GutterLock Extreme Flow is a 4' length panel that installs universally on 5" and 6" gutters. Extreme Flow comes in 13 colors. Extreme Flow can be ordered in quantities of 25 pieces (full box = 100 ft.) or 4 pieces (which is a small box of 16 ft.).

1 - 499 pieces = Regular Shipping / 500 or more pieces = Discounted Shipping

GutterLock Elite and Extreme Flow is available in 13 colors*:

White	Gray	Charcoal
Cream	Clay	Sand
Bronze	Brown	Musket Brown
Dark Bronze	Black	Forest Green
Linen		

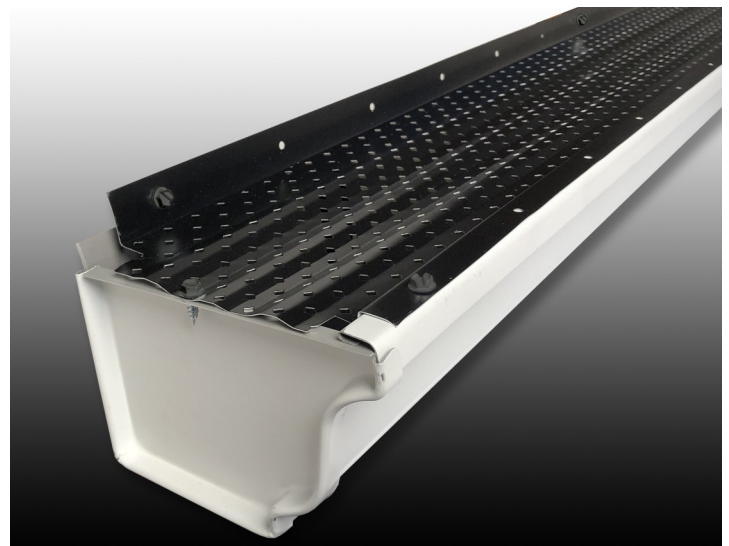

*See Dealer sample chips for exact color match.

GutterLock Diamond's ribbed cover allows for debris to be lifted off with a gentle breeze. Uncovered gutters and downspouts can easily get clogged with leaves and debris. When gutters are clogged they will overflow with water which can cause major damage to your customer's home foundation, fascia, landscaping, and siding. GutterLock Diamond has a diamond-shaped filtration system that can handle any rainfall and outperforms other gutter protection products with round holes.

- Very affordable
- 100% recycled aluminum
- Environmentally friendly
- Fits all residential gutters
- Diamond holes handle ANY rainfall
- Provides animal and pest control
- Adds more stability to gutter system
- Available in both 5" and 6" sizes

GutterLock Diamond

GutterLock Diamond is a 6' length panel that comes in 5" and 6" widths and colors Black and White only.

There are 50 pieces per box that equals 300 ft.

Diamond can only be ordered in full box quantities.

1 - 14 boxes = Regular Shipping / 15 or more boxes = Discounted Shipping

LOW PROFILE DIVERTER

NEW PRODUCT

LOW PROFILE DIVERTER

- **GutterLock Low Profile Diverters are designed to keep water from flowing over the top of your gutter covers or just gutters in heavy flow areas such as an inside corner. Our aluminum diverter can easily handle any rainfall. Splash diverters are typically an eyesore with how tall they are. Ours are only 2" tall and 16" long. Our special patented design forces water downward and back towards the gutter or gutter covers. Very easy to install on any gutter system. Sold individually or by the box (10 diverters per box)**
- **Color: Available in all 13 GutterLock colors**
- **2" Height x 16" Length**

ACCESSORIES

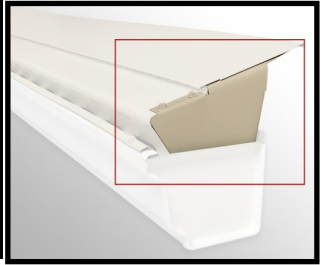

GutterLock End Caps for Elite and Extreme Flow

End Caps are designed to install universally on 5" & 6" gutters on the ends of Elite and Extreme Flow.

Ordered by the piece. Left or Right. Available in all 13 colors.

End Caps

- The warranties can be downloaded from our website or emailed to you upon request

GUTTERLOCK WARRANTY

OUR QUALITY GUARANTEE

During manufacturing and installation, natural oils may adhere to the GutterLock Elite/Extreme Flow panels and cause minor runoff on newly-installed systems. This is normal and will discontinue after 30-60 days. Normal weathering will enhance the performance of the GutterLock Elite/Extreme Flow system. Over time, dirt may build up around the horizontal edge of the system. Annual cleaning using a garden hose with a sweep nozzle or pressure hose nozzle will help maintain proper performance. In regions where excessive tree sap, hardwood tree tassels, and/or pine resin are prevalent, this front edge may require additional cleaning. Alignment and spacing is critical for performance.

Only allow a certified dealer to adjust or tamper with the system, and do not allow ladders to come in contact with the gutters or the GutterLock Elite/Extreme Flow system attached to the gutters. The performance of GutterLock Elite/Extreme Flow is reduced with the use of paints and waterproofing chemicals. Do not paint the GutterLock Elite/Extreme Flow panels or components.

GutterLock Elite/Extreme Flow is designed to be a closed system. Water flows into the gutter at the pre-set gap along the gutter front, but birds and animals are prevented from entering and obstructing the flow of water. If gaps, spacing, misalignment, or missing endcaps allow birds or animals to enter the system, contact your GutterLock Elite/Extreme Flow installer for service.

If your GutterLock Elite/Extreme Flow is damaged by actions beyond your control (such as hail and other acts of nature), corrections should immediately be made to maintain peak performance. If accidental damage or misalignment does occur, please call your GutterLock Elite/Extreme Flow installer for service.

GutterLock Elite/Extreme Flow will not eliminate ice formation or icicles at your eaves. Ice formation is mostly caused by factors not related to your gutter system. In fact, you may see more ice (icicles) on the outside of the GutterLock Elite/Extreme Flow system because an open gutter tends to collect ice inside the gutter; however, GutterLock Elite/Extreme Flow is engineered to discourage anything from entering the gutter except water. Therefore, it is normal to see some icicles on the outside of the GutterLock Elite/Extreme Flow system.

Gutter Protection Systems

INSTALLATION

- All of our styles of products are very easy to install but the manuals and install videos explain tips and tricks that will help the installers
- Diamond installs by sitting flat on the gutter with four screws on the front and two screws in the back
- The panels interlock, are easy to cut, and don't need any additional accessories to complete the job
- The Elite and Extreme Flow install by sliding the panels under the first layer of shingles and screwing to the front edge of the gutter
- Use end caps, inside miters, and diverters wherever needed
- To access and open installation videos go to our website www.gutterlockdealer.com, Click on support to access all our install videos.

PACKAGING

- Diamond panels are 6 ft long sections that come 50 pieces per box
Diamond can be ordered in 5" or 6" and Black or White
- We also sell Elite/Extreme Flow in a 4-piece box
- Elite/Extreme Flow can be ordered in 13 different colors
- Elite/Extreme Flow have 3 accessories designed to keep the system a completely enclosed system
- End Caps (which close in the end of a run of gutters) – come in left and right and in all colors and can be ordered by the pair
- Inside Miters (which fit over any inside corner) – come in all colors and can be ordered by the piece
- Diverters (which install over any area of high flow of water to deflect water from overflowing the panels) – come in all colors and can be ordered by the piece
- Extension Sleeves— come in black only and ordered by the piece
